How to Change the Default APP to open a pdf in Windows 10
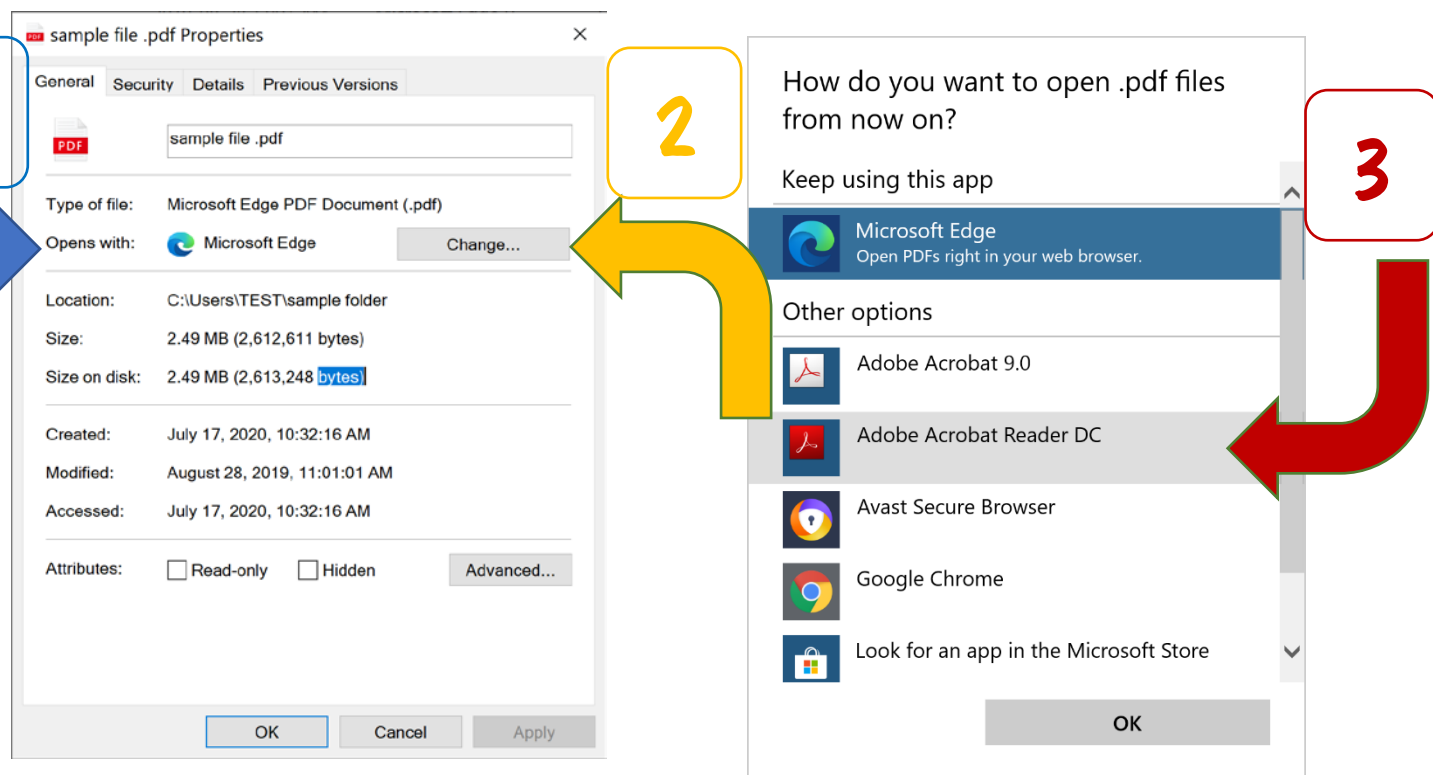

(from Microsoft Edge - default - to Adobe Reader)

	Name ⌃	Date modified
☑ 📄	sample file .pdf	2019-08-28 11:01 AM

1. Right click on the file name as it appears in File Explorer (above) to bring up the menu and select **PROPERTIES (bottom of the list)**

   THE DEFAULT APP IS SET TO **MICROSOFT EDGE** (below LHS)

2. **Select *CHANGE* Button** to CHANGE TO ADOBE (below LHS)

3. In the Form (RHS Above) **Select Adobe Reader OR Adobe Acrobat** (if installed) and select OK
4. The default app will now appear as selected: **Adobe Reader** and the icon beside the file in file manager will **change to the ADOBE icon.**

Adobe ICON (above)
